

Why?

Water, dirt, and sediments can accumulate in stored diesel fuel and threaten the quality of the fuel and the performance of the engine that will use it. Semler's PetroPolisher™ systems are engineered to remove these threats quickly and efficiently, and our 4-wheel cart version makes it easy and cost effective for users servicing multiple tanks or smaller tanks. Our PetroPolisher™ cart is ideal for applications with stationary fuel tanks, generator base tanks, fuel docks, marine storage tanks, and more.

Portable Fuel Polishing System

*This unit is
ideal for tanks
1,000 gallons
or less.*

DIMENSIONS

Height: 42"
Width: 24"
Length: 30"
Weight: 230 lbs

STANDARD PACKAGE

- Durable and reliable self-priming Blackmer 23GPM pump
- Electric motor (TEFC) (120V, 20A circuit needed)
- Portable, heavy duty, 4-wheel cart design
- Clear hose for visual confirmation of fuel clarity
- Accepts particulate-capture, water absorbing, or coalescing separator elements
- Compact design is lightweight and fits through doorways
- Heavy duty 25' cord with plug
- 30' braided grounding cable with clamp
- Designed for initial water and heavy debris removal before second stage polishing
- Simple on/off operation
- Stainless steel base serves as a drip tray

Semler's PetroPolisher™ 4-Wheel, 2-Stage Cart

PPC23-DI-EM11 Model shown

ADVANTAGES AND BENEFITS

- Helps keep fuel within specifications
- Reduces fuel injector wear and failure
- Easy to store, move, and handle
- Reduces risk of down time
- Provides more reliable engine performance
- Cleans, polishes, and transfers
- Fast! Up to 1,380 gallons per hour
- Assembled and ready to use
- Can extend stored fuel's life
- Made in the USA

Semler's Fuel Polishing Systems - Designed & Built to Your Needs

Basic styles shown below

**PetroPolisher™
Cart**
*Ideal for tanks
1,000 gallons
or less*

**PetroPolisher™
Stationary Unit**
*Ideal for stationary 24/7 applications
for stored fuel (new or existing)*

PetroPolisher™ 150 GPM
*Permanently mounted, automated
& trailer mounted units for 8,000 -
20,000 gallon tanks*

**PetroPolisher™
Wagon**
*Ideal for filtering, polishing
and transferring on tanks
with 1,000 - 10,000 gallons*

**PetroPolisher™
Skid**
*Ideal for
mobile truck
and trailer
mounting*

Do you have a unique situation? Many of our customers do. Just let us know and our engineers can custom design a unit that fits your needs perfectly.

Semler Industries brings over 100 years of meeting customers' demands and 50+ years serving the petroleum and chemical markets together to meet the fuel polishing needs of our customers. We provide custom systems for mission critical applications, generator service companies, and anyone in the marine, transportation, mining and agricultural industries who rely on diesel fuel. From portable 2-wheel carts to permanent/automated units, everything we do is focused on maintaining the quality of the diesel, and making it easy for you to handle.
