

One Pressure Relief Valve that does it all.

Proudly made in the USA

**Tank Trailers to Blower Units
High to Low Temperatures
Food Grade to Frac Sand**

**B.T.I. All-in-ONE
Pressure Relief Valve**

BTI is now offering a pressure valve that does it all. Instead of buying separate valves for tank or blower, high or low temperatures, food grade or non-food grade, the All-in-One Pressure Relief Valve can take care of all your needs. Just specify the pressure you need and let us know if it's for the tank or the blower, so we can make the proper pressure adjustment, and you're good to go!

Available in:

2" or 3" sizes.

Adjustable, fixed, or manual release

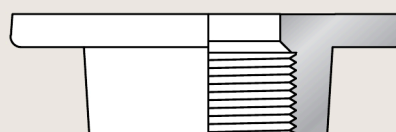

Pressure ratings of 5- 30 PSI.

Male cam lock fitting, male anodized threads and female anodized threads.

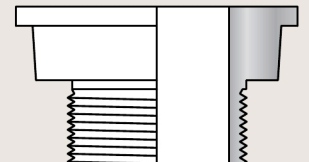

The All-in-One features an FDA approved seat and tamper proof seal to ensure that the pressure setting specified is not changed by the operator.

Also available with:

Female Anodized Thread

Male Anodized Thread

All BTI products are guaranteed to:
LAST LONGER. WORK BETTER.
