Baylite[™] 6210 Fuel Delivery Elbow

The Right Connection®

LIGHTWEIGHT/COMPACT

Improving upon our industry standard 6200-Series elbows, the 6210 Baylite elbow is designed for driver comfort and ease of storage along with proven Bayco toughness and reliability. The versions and parts below replace the 6200-Series elbows effective August, 2024.

Application

 Delivery of motor fuels to service station underground tanks

Materials

 Lubricated bushings with forged alloy lever and bronze cam arms

Features

- The 6210A weighs in at 13.95 lbs, over 1 pound lighter than the equivalent 6200-Series elbow.
- · Compact design fits into most equipment boxes
- Uses common lower end unit, and inlet fittings
 for 6000, and 6500 Denies all aver-
- for 6200- and 6500-Series elbows

Approvals

• Baylast[™] seal is rated for bio-diesel, Ethanol, diesel, gas, and ULSD
